Exercise 4 – Hotel Management System

1. Actors. Client, receptionist, cashier, housekeeping staff, floor manager and maintenance staff. The client's bank server is a secondary actor.

2. Actions outside the system. Phone calls, client arrival/departure, requesting and consuming meals, physical cleaning, room inspection, repairs, and the bank's internal payment checks.

3. Functional boundaries. Reservation management; stay management; billing and payments; room management.

4. Use case diagram.
